## LIQUOR LAW IN PROVIDENCE.

The question of liquor licenses, which has of late been much agitated in this city, is before the people of Providence in a form differing somewhat from that in which it has yet been presented here. A Committee of the Board of Aldermen has the matter in charge, to recommend the best course to be adopted in reference to the granting of licenses and to fix the sum to be required in case they are granted. At a public hearing before this committee the liquor dealers were represented by some of their number, who asked that the price of licenses might be put at a low figure, stating that the supposition that the trade is very profitable is a mistake and that the business cannot afford to pay a high price for license.

On the other hand, Ex-Mayor Knowles argued in favor of entire prohibition by withholding licenses altogether. He employed the well-known and unanswerable arguments in favor of the suppression of the traffic, and was partially sustained by Alderman Lester, who argued for prohibition in the main but did not believe the practice could be enforced in the present state of public opinion. Mr. Knowles stated that under his administration of the city government in 1855, liquor selling was greatly reduced and that it might have been further restricted had not political changes wrought corresponding changes in this respect. All who remember the state of affairs under Mr. Knowles' administration can testify to the correctness of his statements; and it appears singular that, among all the temperance men of Providence, no one stood up with him to advocate the cause in which he has so long been a faithful and consistent worker. The Committee announced no decision on the subject.

## The European War Question.

As matters now stand, war between France and Prussia appears inevitable and near at hand. France makes an absolute claim for Luxembourg and Prussia announces a determination not to yield it nor to withdraw from it. The question thus ceases to be one of territory merely, and is simply, whether the dignity of the Empire shall or shall not be maintained. The Prussian ministry has declined the mediation of the great European Powers, and says no mediation or protection is required. Napoleon is embarrassed with the great Exposition on his hands, but it is said he will not permit that to prevent his going to war to maintain his power or to make good his demand for the duchy.

With two such diplomats as Napoleon and Bismarck at the head of affairs, it is not to be anticipated that much will be granted in the way of conciliation, and it is believed that the question is already beyond the point at which conciliation is to be expected. The press of France is very generally with the Emperor, and if he proceeds as he has begun, he will be warmly sustained by the nation which has not yet lost its enthusiasm for the glory of France; while the civilized world cannot look otherwise than with horror upon such scenes as must necessarily attend a war between two such powerful nations. The prize does not seem to be, on this side of the Atlantic, to be a very valuable one; and the chief end in view in the impending contest must be the questionable object of upholding a dignity which might be much better maintained by securing the happiness and prosperity of the people respectively.

## Festa of The St. Nicholas Society.

The annual Festa Festival of the St. Nicholas Society was held 22d inst., at Delmonico's corner of Fourteenth street and Fifth avenue. The descendants of the old Dutch settlers who first peopled Manhattan have not forgotten their old ancestry, nor the manners and customs of the burghers; and the jollity and good humor which reigned among the sons of St. Nicholas last evening proved infectious in several directions. In Juwett City, C., a dwelling house belonging to the Ashland Company, was struck and badly shattered, and a fifteen year old lad named Donnelly, was killed. The picker-room of the Ashland factory was set on fire, but the flames were soon subdued. In Brookline, Mass., Hon. Charles R. Train, who was standing in front of the depot, was stunned and thrown down, but soon recovered. His umbrella was the conductor. A house in Chelsea was struck and somewhat shattered, and the inmates much shocked. Lightning also struck in Worcester and other places without very serious damage.

A Denver dispatch of the 22d, says Lookout Station, 270 miles east of the Smoky Hill route, was destroyed by the Cheyenne Indians on Monday last, and three of the employes of the United States Express Company killed and scalped. Eight of the Company's horses were stolen. This was subsequent to the interview between Gen. Hancock and the fifteen Cheyenne chiefs, reported by telegraph yesterday. Gen. Hancock had started in pursuit.

A violent tornado passed over the northern part of New Jersey on Monday afternoon, its track being half a mile wide. It was chiefly destructive at Newton, Sussex County, where some barns were blown down and three were killed. The gale was violent but less destructive on the line of the Morris and Essex Railroad.

### \$50 REWARD.

MAJOR OF THE CITY,  
Newport, April 23, 1861.

The above reward will be paid to any person who will give information leading to the arrest and conviction of any person who shall wantonly or maliciously create a false alarm of fire.

SAM'L A. PARKER,  
april 21—  
Major.

**TOTAL OF STEAM FIRE ENGINES.**—There was a trial yesterday afternoon, at the Cove Basin in this city, of two steam fire engines manufactured by rival Companies—the establishment of Cole Brothers, Pawtucket, and the Amoskeag, of Manchester, N. H.

Notice was given, some days ago, to the authorities here, that a steamer manufactured by the first named Company would be exhibited here, and she was expected last Monday, but for some reason her arrival was delayed until last evening. Meanwhile, somebody had "tipped the winkle" across the hills to New Hampshire to the Amoskeag Company, manufacturers of the machine now owned and in use in this city, and their agent, Mr. Bean, was on hand here when the Pawtucket machine came down, last evening, to see that his steamer was well managed in a trial which was prospectively to result in the successful machine being the choice of the Board of Firewards in the purchase of a new steamer about to be made for the City.

The steamers took their stations at the basin about half-past 5 o'clock, and played the new engine through three-inch hose and the other through two and one-half inch. The Pawtucket machine being new, worked stiffly, and a proper estimate could not consequently be made upon her real capabilities. Yet she did her work in a very satisfactory manner, and many thought her equal in effectiveness with the other under more favorable circumstances.

The Amoskeag machine has, however, worked perfectly satisfactory, thus far, and the probability is that another steamer will be ordered from the same Company, unless a superior one should be brought forward by some other company.

**YANKEEIZED.**—A young man, an acquaintance of ours, made his first visit to New York, a few days since, and not being thoroughly posted in the ways and manners of that wicked city, was lollated into the first degrees thereof by some of the adepts in the art and science of swindling.

His first adventure was with one of the blue-steam fraternities. Having bargained for a good "shave" for ten cents, he placed his foot upon the box and soon had the satisfaction of seeing it changed from a dull black to a brilliant polish. Having accomplished this much, the operator demanded his fee before completing the job. Our friend drew out a 25, as the smallest he had, which the lad said he would get changed, and started off accordingly. His customer thought he "smelt a mite," and ordered him to come to a halt, but the young rascal, grinning with his fingers soon disappeared, leaving his victim no other resource than to have the job completed at an expense of another 10 cents.

Having completed the "shining up" of his boots he took a walk about the city, and during his ramble was accosted in a "friendly" manner by a stranger with a well-filled pocket book, and asking him if he had not lost it. He thought he had, and very generously gave the "studer" five dollars, pocketing the "prize," which on subsequent examination proved to be well stuffed with worthless brown paper.

Having thus been introduced to a member of the elephant family, he took the next steamer for home, there to meditate upon these new evidences of the depravity of human nature.

**ACCIDENT.**—As the steamer City of Newport was coming to her wharf yesterday afternoon, Major Henry T. Congregate, son of Postmaster Oggiehell, was severely injured by the however, as he was standing on the wharf. He was cared for by Drs. Watson and Engs, and is doing well to-day. The injury does not prove so bad as was at first feared, though it was as by a miracle that his life was preserved.

**THE ATLANTIC CLUB** are making arrangements for a Calico Social tomorrow evening. They are sure to have an enjoyable time.

**VILLAGES IN RHODE ISLAND.**—The census of this State for 1865 gives the number of villages with the population of each and the names of the towns in which they are situated. From the tables it appears that there are 166 villages containing 80,642 inhabitants, or, 42.28 of the total population of the State. The population of the two cities is Providence, 61,695; Newport, 19,692, being 26.87 per cent.; and the rural population 37,640, or 20.85 per cent.

Omitting the two cities, the number of villages in the State, of different sizes, is as follows:

1,000 inhabitants or more,	16
600 to 1,000 inhabitants,	18
300 to 600 "	22
200 to 300 "	21
100 to 200 "	40
Less than 100 "	61

Whole number of villages ..... 166

**PORTSMOUTH.**—**FIRE.**—During the thunder storm, which passed over here, Saturday night, a shed on the farm of Benjamin Hall, adjoining the Portsmouth Grove place, was struck by lightning and consumed.

**LIVERY STABLES DESTROYED BY FIRE AND TWENTY-FOUR HORSES BURNED TO DEATH.**—The extensive livery establishment connected with the Oliver House at Toledo, Ohio, owned by Messrs. Aborn & Dickerson, was destroyed by fire Monday morning. There were twenty-five horses in the stable at the time, of which number one only was saved. Loss from \$10,000 to \$12,000; insured for \$15,000.

**EXCITEMENT AMONG THE RICHMOND NEGROES.**—On Monday a negro insisted on riding upon a street car. The conductor put him off, where several hundred negroes gathered and insisted that the man should ride. A strong force of police came up, and the man was arrested. Much excitement was caused at the time.

**MARSHAL OF BISHOP VAIL.**—Bishop Vail, of Kansas, was married in Philadelphia on Monday evening, to Miss Ellen Bowman, daughter of the late Assistant Bishop Bowman.

**Two fatal cases of Asiatic cholera are reported in the parish of Bayou Sara, La.**

The untiring energy of the proprietor of Congregation Emporium, Providence, still continues to draw large crowds of customers to his house-furnishing store. Such has been the trade to this popular house during the last few weeks, that it has been found necessary to add several new assistants to the great number already employed; and with the present efficient corps of clerks, and the addition of two teams to his delivery department, he hopes to be able to give the pressing wants of his customers immediate and prompt attention. To his previously large stock of goods, there have been numerous additions by importation and otherwise of carpeting, furniture, stoves, crockery, glassware, woodware and other house-furnishing articles, forming altogether one of the most extensive assortments in New England from which to make selections. Notwithstanding the present great trade, there is still room for more to supply themselves with house-furnishing goods at the low rates for which this house is much noted. For the accommodation of those who have not ready money the Emporium still continues to loan on the system of weekly and monthly payments.

**Lumber & Building Materials.**—The proprietor, contemplating a change in his present business, offers his well assorted stock of **Lumber and Building Materials**, consisting of Spruce Timber, Plank and Joist, Hemlock Boards, Pine Gutter Joints, Flushing lumber from 1 to 6 inches, Western 11, 12, 3, 8, and 4 inch planks, Barn and Fence Boards, Cedar and Chestnut Posts, Eastern Shaved and Sawn Shingles, Clapboard and Laths, Lime, Brick and Cement, Builders' Hardware, &c., &c.

The above will be closed out to lots at reduced prices for cash; or to any one willing to purchase the business favorable terms will be offered, at HAMMETT'S March 2 Lumber Yard, 281 Thames st.

Penn's Salt Manufacturing Co's RENOWNED **Saponifier!**

With Your Waste Grease.

2 Cents only for every pound of Soap.

**DIRECTIONS.**

Disolve one bar of Soap in 21 pounds (pint) of hot water in a strong pot. Melt in another pot 2 lbs. of clear fat or grease. Take of the fat, and stir into this slowly the dissolved soap, and keep stirring until the whole becomes well mixed and like molasses. Now cover up, and set in a warm place over night. Next day cut it into small pieces, add 2 lbs. (or pints) of water, add melt with a gentle heat until the soap is all dissolved, then pour into a tub to cool. When cold cut into bars, which will be useable in about 10 days.

**BEWARE OF COUNTERFEITS.**—In particular, masking for Penn's Salt W. Co's Saponifier.

## Latest News

FROM WASHINGTON.

WASHINGTON, April 21.

One of the President's private secretaries states publicly that Mr. Adams has been instructed to decline the proposition made by the British Government a few days since for an adjustment of the Alabama claims. This leaves that question where it was originally, without any proposition from either party pending. It is not improbable that the British Government may next propose to re-negotiate British Columbia as an offset for these claims, but there has been no proposition from our Government, neither have any negotiations taken place on this subject.

The Post-Office Department has a case in the Court of Claims, at Toronto, which involves some nice international questions. It appears that considerable quantities of United States postage stamps, 1 and by one of the Rebel pirates on a vessel she had captured, were sold in Liverpool and thence brought to Quebec with the idea of getting them into the States for sale. The government, getting knowledge of the fact, got out an injunction to prevent this action. Depositions in the case are to be taken in New York on the 6th of next month, and afterwards in London and Washington.

THE BANKRUPT LAW.

Chief Justice Chase is pushing matters so that the bankrupt law can go into operation on the first of June. The rules for practice under it were completed to day by the associate justices and make a good sized volume. They will be printed and ready for distribution about the first of May.

FROM VENEZUELA.

Affairs in Hayti.

RANSOMMENT OF GERFARD AND HIS MINISTERS.

SALVAGE ELECTED PRESIDENT.

EXPECTED WAR WITH ST. DOMINGO.

NEW YORK, April 21.—Advices from Venezuela state that the American claims against that government would, it was expected, be satisfactorily agreed upon. Gen. Blance, President of the Senate, in his speech told the annexation of Ecuador to Colombia was impossible.

Jamaica papers state that the Hayti revolutionaries have issued a decree banishing forever Jefard and his family and all his supporters, confiscating their property, and authorizing any citizen to punish them for treason if they return. Another decree banishes all others who did not take part in the revolution. Gen. Garza has accepted the Provisional President, and Salinas had been elected President. The latter had been received at Cape Hayti, with enthusiasm, and it is supposed that he will immediately declare war against St. Domingo, President Cabral being his bitter enemy.

THE JAPANESE COMMISSIONERS.

ATTEMPT OF MAXIMILIEN TO ESCAPE FROM MEXICO.

NEW YORK, April 24.—The Japanese Commissioners, now here, were waited upon yesterday by Mr. R. T. Oliphant of the State Department, who informed them the President would receive any communication they had immediately. They informed Mr. O. that they would go to Washington on Friday, when they would make known to the President the import of their business, which they thought would be of benefit to both countries.

Mexican papers say Maximilian, accompanied by his general officers, only attempted to retreat from Queretaro on the 26th of March, but were beaten back. Three of his officers, however, escaped.

The steamer which had on board the messenger from Mr. Campbell to Juarez, to telegraph in behalf of Maximilian, was obliged to put into Brazil, short of cost, and would have to land the messenger at Tampos.

MR. WILSON'S SOUTHERN TOUR.

NORFOLK, Va., April 21.—Hon. Henry Wilson today addressed a crowded audience, composed mostly of negroes, in Belle Church. He said his southern tour was not in the interest of any organization. He urged his hearers to support the platform of the Richmond convention, and said he had no doubt that Virginia would be carried by a republican majority. Governor Fitzpatrick and several other speakers followed. Great enthusiasm prevailed.

Notwithstanding the present great trade, there is still room for more to supply themselves with house-furnishing goods at the low rates for which this house is much noted. For the accommodation of those who have not ready money the Emporium still continues to loan on the system of weekly and monthly payments.

**GREAT FIRE AT PETROLEUM CENTRE—LOSS \$75,000.**

PHILADELPHIA, Pa., April 24.—Almost the entire business portion of the town was destroyed by fire last evening. The fire originated in the Union Hotel, and destroyed the Union Hotel, Kompsky's dry goods store and Schatz's liquor store. The loss is estimated at \$75,000. The supposed incendiaries have been arrested.

NEW YORK ELECTION.

NEW YORK, April 24.—The Tribune estimates the majority for the Republican ticket for the Constitutional Convention in the State at 26,000, giving a large majority of delegates to the Convention.

AN EARTHQUAKE IN MISSOURI.

St. Joseph, Mo., April 24.—A severe shock of an earthquake was felt here at 8 o'clock this afternoon. Buildings shook and swayed with motion, causing much alarm among the people. No damage has yet been reported.
